KBN TECHNOLOGY

The next level of digital transformation and AI

Company Profile

www.kbntechnology.com

KBN Technology — Your Trusted Partner for AI-Powered Digital Transformation
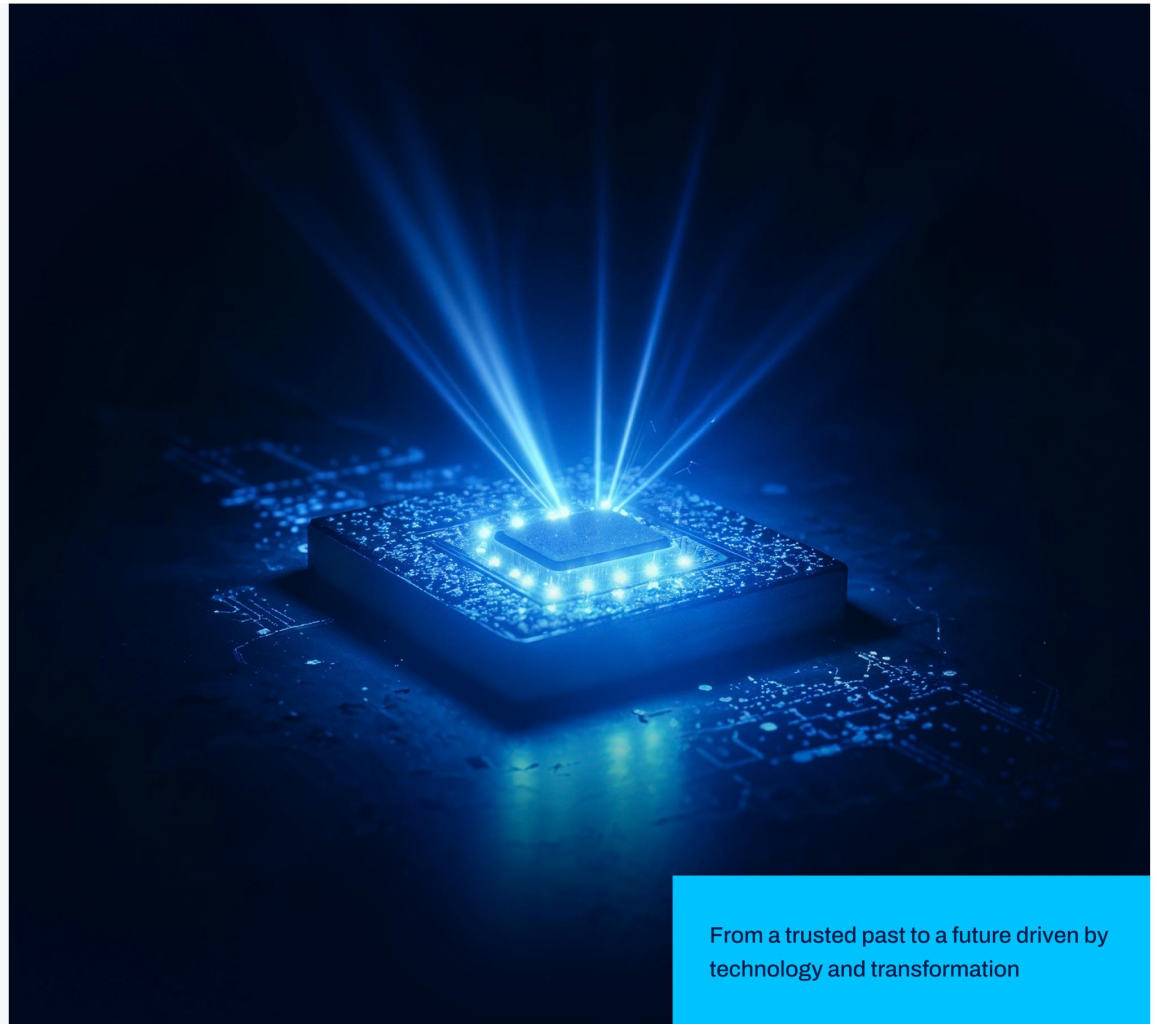

At KBN Technology, we empower enterprises to embrace the future by leveraging AI, cloud, IoT, and data analytics to unlock new opportunities, enhance operational efficiency, and deliver measurable value. As a global technology partner with deep expertise in government, banking, and diverse industries, we offer end-to-end digital transformation services, from strategy and consulting to seamless implementation. Our client-first mindset, proven delivery excellence, and commitment to innovation make us the catalyst for your digital success.

A Legacy of Excellence

KBN Technology belongs to the esteemed KBN Group Holding, a name synonymous with trust and diversification in Qatar's business landscape. Rooted in a rich heritage, the group has played a vital role in Qatar's development by introducing world-class amenities and delivering exceptional services across multiple industries.

Guided by its long-standing mission to create lasting value, KBN Group continues to shape the future by supporting sustainable growth, enhancing quality of life, and serving as a reliable partner for comprehensive solutions in Qatar.

Driving Impact Through Purpose, Mission & Vision

We empower clients and teams to unlock their potential and embrace change. Through innovative, stakeholder-focused solutions, we drive measurable value and performance. Our vision is to be the trusted partner for purposeful leadership and a sustainable future.

Transforming Potential into Lasting Success

Our purpose

We exist to empower clients and their people to unlock potential, embrace change, and thrive in an ever-evolving world.

Our Mission

We are committed to delivering measurable value by transforming performance through innovation, excellence, and stakeholder-driven solutions.

Our Vision

To become the most trusted transformation partner, enabling organizations to lead with purpose and shape a smarter, sustainable future.

Target Markets

QATAR

BAHRAIN

KSA

SYRIA

UAE

EGYPT

OMAN

Digital transformation empowers businesses to stay agile, competitive, and ready for the future

It enables faster adaptation to market changes, smarter decisions through real-time insights, and greater value delivery to customers, partners, and stakeholders.

Empowering Businesses Through Digital Transformation

We deliver tailored technology solutions that streamline operations, boost productivity, and support growth across diverse industries

Industry Expertise

Extensive experience across diverse sectors

Global Talent Pool

Access to skilled professionals worldwide

Scalability & Flexibility

Expand or contract the workforce based on demand

Cost Efficiency

Reduce overhead costs while maintaining high-quality service

# Empowering Digital Transformation Through Future-Ready Services

From consulting to cloud, Kubernetes, and integration KBN Technology delivers tailored solutions that drive innovation, efficiency, and growth.

www.kbntechnology.com

Technology Enablement & Cloud Services

End-to-end technology solutions to help businesses modernize, boost resilience, and scale, trusted by government and banking sectors.

Consulting Services

Strategic solution design to drive digital transformation

Microservices Architecture, Middleware Modernization, Transformation Planning

Kubernetes Services

Containerization and orchestration for scalable applications

Kubernetes Adoption & Support, Container Lifecycle Management, Secure Deployment Pipelines

Observability Services

Real-time system visibility to ensure optimal performance

Monitoring and Logging, Performance Analytics, Proactive Issue Detection

Cloud Services

Expert-led cloud adoption and optimization strategies

Multi-cloud & Hybrid Platforms, Infrastructure Optimization, Workload Migration, Data Protection & App Storage

Middleware Integration

Seamless integration across platforms for efficient workflows

API Security Management, Microservices Integration, App Containerization, Legacy System Modernization

OT Integration

Bridging the gap between operational and IT systems

Industrial System Connectivity, Unified Data Exchange, Secure OT–IT Convergence

Intelligent Innovation & AI-Powered Solutions

Innovation is at the heart of our services. We empower organizations to reimagine their operations through intelligent automation, advanced analytics, and AI-driven solutions that enhance decision-making and customer experience

Digital Solutions

Modern, cost-effective applications built for scalability

Cloud-Based Development, Proprietary & Third-Party Tool Integration, Industrialized Implementation

Business Consulting

Strategic guidance for enterprise digital evolution

Digital Transformation Roadmaps, MVP Design & Implementation, Cloud Usage Optimization, Custom Business Solutions

Application Integration

Flexible architecture for seamless data and workflow connection

API-Driven Design, Configuration-Based Integration, Cross-Application Synchronization

AI-Driven Solutions

AI-enabled intelligence to transform business capabilities

AI-Powered Chatbots & NLP, Predictive Analytics & Machine Learning, Application Modernization & DevOps

Automation Services

Streamlining operations for greater productivity

Robotic Process Automation (RPA), Workflow Automation, AI-Driven Process Enhancements

IoT & Smart Solutions

Connected systems and smart technologies for modern enterprises

Device Integration & Real-Time Analytics, Custom IoT Applications, Smart City & Industry 4.0 Tech

Comprehensive Technology Solutions

We deliver advanced AV, IT, security, and ELV systems with seamless integration, helping businesses future-proof with scalable, cutting-edge solutions.

High-Quality AV & IT Solutions

We provide advanced AV, IT, and ELV products in partnership with leading global brands.

On-site training for clients and users, Full project lifecycle support, Timely, professional warranty handling

Security Systems

We deliver cutting-edge security solutions through global brands like Dahua, Trakblaze, RUNWEIGHT, and ZMS

Traffic & Parking Management, Intelligent Transportation Systems, ANPR & Custom Security Solutions, Weigh Stations & Structured Cabling

Training Solutions

We deliver engaging coding education for kids, schools, and universities, along with immersive VR-based training for the oil & gas and construction industries.

Interactive learning modules, industry-specific simulations, on-site and remote training support.
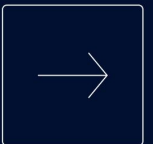

ICT / ELV Services

Specialized ICT/ELV services for smart buildings across sectors like healthcare, hospitality, and education.

AV Systems & Digital Signage, Security, Life Safety & Access Control, Data Networks, IPTV & Home Automation, System Design, Integration & Maintenance

End-to-end technology solutions tailored for today's enterprises

Specialized Services for Smarter, Safer, and More Efficient Business Operations.

→

💻 Cloud Solutions

Scalable, secure cloud services with advanced DevOps and integration tools.

Platforms
- Oracle Cloud, Google Cloud, MS 365
- Kubernetes (Rancher, OpenShift, AKS, GKE, EKS)
- Ansible, Jenkins, GitOps, Azure DevOps, ArgoCD
- IBM API Connect, MQ, App Connect, Rabbit MQ, Aspera

🏦 Fintech

Empowering banks and financial services with digital-first platforms.

Subsidiary
- Bankarise - Retail Banking Platform
- FinConnect API accelerator
- RTP Manager — Vendor transactions
- Open Banking Consent Management
- Crowdfunding (e- & m-Investment Gates)

👥 Staff & Welfare Solutions

Flexible solutions for workforce engagement, staff productivity monitoring and automation.

Solutions
- Staff benefits marketplace
- HR self-service, digital signature, e-services, AI chatbot

🏢 Business Applications

Custom apps, automation, and mobile solutions for every business need.

Solutions
- PowerApps, Power BI, Power Automate, Copilot Studio, Power Pages
- Frontend: React, Angular, Vue.js
- Mobile: Swift, Kotlin, Flutter, React Native
- Backend: Java, Python, Node.js, Rust

🤖 AI, Data & Observability

Custom Data management and observable solutions powered by AI for various business needs.

Solutions
- AI Chatbots for Customer service
- Audio and Visual recognition-Productivity, access control and behaviour tracking
- Asset tracking-RFID & Digital Twin Solutions

🔒 Security & Backup

Comprehensive fraud and risk protection for data, mail, endpoints and cloud environments.

Solutions
- Data, Network and Email Protection
- Data loss protection Cloud and On-Premises back up solutions
- Disaster Recovery as a Service (DRaaS)
- Backup automation and scheduling

🏙️ Smart City & IoT / ELV

Integrated tech for safer cities and smarter infrastructure management.From ITS to CCTV, our solutions enable seamless monitoring and control.

Subsidiary
- SecuCorp — ITS, ANPR, parking, access control
- MSI / MDC — CCTV, fire, ELV systems

🏠 Real Estate & Facilities

Complete management of properties, pools, and landscapes. Ensuring safe, functional, and beautifully maintained environments.

Subsidiary
- Beverly Hills Real Estate & Facility Management
- Beverly Hills Pools & Landscaping

🛍️ Retail & B2B

Reliable solutions for retail, B2B appliances, and pharmacy operations.Combining top global brands with trusted after-sales support.

Subsidiary
- Whirlpool B2B appliances
- Aksyr Al Hayat pharmacies

🎨 Creative & Marketing

End-to-end digital marketing, branding, and media services. Building strong brands and engaging customer experiences.

Subsidiary
- Brain Waves

⚡ Energy & Electrical

High-performance LV/MV switchgear and control systems. Ensuring safe, efficient power distribution for critical needs.

Subsidiary
- Q-Tec switchgear and control panels (ABB partner)

Our advantage

Our digital transformation services include providing solutions that modernize obsolete systems, streamline operations, and create outstanding customer experiences using AI, data analytics, cloud computing and automation. We owe our success to focusing on 4 areas that are critical to delivering results that exceed expectations.

AI

Technology

We constantly evaluate and update our technology stacks to stay ahead of the curve in the digital landscape. Our technology solutions are robust, cloud-based and easily scalable

People

Our people are the most important advantage, their skills and knowledge are our competitive edge. Our team includes people with the most diverse skill-sets

Process

We always begin our process by comprehensively understanding our clients' operations and goals. We then design and implement solutions that are robust, scalable and deliver results

Metrics

We work with our clients to choose metrics to provide insights for their decision makers to understand what is working and what is not

Together, these pillars enable us to deliver transformation that's not just digital—**but deeply impactful**

Our tech Stack

We leverage a wide range of tools and technologies to drive digital transformation

Platforms

Containerization

Integration

Automation

Observability

Streaming

Data & Ai
